

Circular on Key parameters to be monitored in respect of mining projects by the Project proponents for putting on their website

Circular Dated 27.05.2009 'Key parameters to be monitored in respect of mining projects by the Project proponents for putting on their website and for display on display board in the public domain – regarding.'

Such an order cannot be outdated as the issue continues to attract attention, in the new mining bill there is a suggestion for creating a sustainable development framework and also mentions about making concession management more transparent. Interestingly the circular states ' In case of small mines operating in clusters, it would be desirable that these mines form a cooperative and monitor the environmental parameters as a group of mines and display the monitored parameters on a display board to be located at a suitable location in the area to show the environmental conditions in the public domain.
