

State			
	<b>Minerals Found in Respective Districts</b>	<b>Brief Summary and Important Links</b>	
<b>CHATTISGARH</b>			
<b>Bastar</b>	Bauxite, Dolomite, Iron Ore (H), Limestone, Garnet and Marble, Granite, Tin	The total value of mineral production remained at Rs. 14133.87 crores in 2010-11. Coal, Iron Ore, Bauxite, Dolomite and limestone accounted for 98.13% of the entire value of mineral production in the state. The state remained at 5th position in terms of its production and contributed 6.65% of the production of minerals in the country. Value of minor minerals remained at Rs. 261.19 crores during the same period. Other Features: Chhattisgarh is the sole producer of tin concentrate & Leading producer of coal and iron ore	
<b>Bilaspur</b>	Bauxite, Dolomite, Limestone, Fire clay		
<b>Dantewada</b>	Bauxite, Iron Ore (H) Bailadila, Corundum, Tin		
<b>Dhamtari</b>	Gemstones		
<b>Durg</b>	China clay, Dolomite, Iron Ore (H) - Boria Tibu deposits in Dalli Rajhara, Limestone, Quartzite, Talc / Steatite, Quartz/Silica sand		
<b>Janjgir Champa</b>	Dolomite, Limestone		
<b>Jashpur</b>	Bauxite, Gold		
<b>Kanker</b>	Bauxite, Iron Ore (H) Chhote Dunger, Gold, Granite		
<b>Kawardah (Kabirdham)</b>	Bauxite, Limestone		
<b>Korba</b>	Bauxite, Coal,		
<b>Koria</b>	Coal		<a href="#">More information</a>
<b>Mahasamund</b>	Gemstones, Gold		<a href="#">RTI link</a>
<b>Raigarh</b>	Bauxite, Coal, Dolomite, Limestone, Quartzite, Fire Clay, Quartz/Silica sand		<a href="#">State Human Rights Commission</a>
<b>Raipur</b>	Dolomite, Limestone, Quartzite, Gemstones, Gold, Granite, Quartz/Silica sand		<a href="#">Public Consultation</a>
<b>Rajnandgaon</b>	China Clay, Iron Ore (H) - Rowghat#, Chargaon, Metabodeli, Hahaladdi; Limestone, Quartzite, Fire Clay, Fluorite, Quartz/Silica sand	<a href="#">Environment Clearance</a>	
<b>Sarguja</b>	Bauxite, Coal		
<b>#</b>	Bailadila - Rowghat deposits are considered to be one of the biggest iron ore fields in India
