

## Minerals found in Odisha

ODISHA	Minerals Found in Respective Districts	Brief Summary and Important Links	
<b>Angul</b>	fireclay, Granite	<p>Odisha topped among all the states as it contributed above 10% to total mineral production in the country. The value of principal minerals produced remained at Rs. 22567.67 crore, an increase of 31.64% over the previous year period. The value of minor minerals remained Rs. 85.68 crores. Coal, bauxite, chromite, iron &amp; manganese ore and limestone almost contributed 99% of the total value of mineral production.</p>	
<b>Balasore</b>	Chromite		
<b>Bargarh</b>	China clay, Dolomite, Graphite, Limestone		
<b>Bhubaneswar</b>	fireclay		
<b>Bolangir</b>	Bauxite, China Clay, Graphite, Manganese, Quartz/silica sand, Quartzite, granite		
<b>Boudh</b>	China Clay, Graphite, Quartz/silica sand, granite		
<b>Cuttack</b>	fireclay, granite		
<b>Dhenkanal</b>	Chromite, Coal, fireclay, Iron Ore (H), Quartzite, titanium, granite		
<b>Ganjam</b>	Garnet, sillimanite, titanium, zircon, granite		
<b>Jajpur</b>	Chromite, Iron Ore (H), Quartzite, titanium, Cobalt, nickel		
<b>Jharsuguda</b>	fireclay, Quartzite		
<b>kalahandi</b>	Bauxite, Graphite, Limestone, Quartz/silica sand		
<b>Kandhamal</b>	Bauxite, Graphite		
<b>Keonjhar</b>	Bauxite, China Clay, Chromite, Dolomite, dunite / pyroxenite, Iron Ore (H), manganese, pyrophyllite, Quartzite, talc/steatite, Asbestos, granite, nickel, platinum group of metals		
<b>Khurda</b>	fireclay, granite		
<b>Koraput</b>	Bauxite, Dolomite, Graphite, Iron Ore (H), Limestone, manganese, granite, tin		
<b>Malkangiri</b>	Bauxite, Limestone, tin		
<b>Mayurbhanj</b>	China Clay, Iron Ore (H), manganese, Quartz/silica sand, Quartzite, talc/steatite, titanium, Copper, granite, nickel		
<b>Nuapada</b>	Graphite, Limestone, granite		<a href="#">More Information</a>
<b>Puri</b>	fireclay		<a href="#">RTI Link</a> or <a href="#">Link2</a>
<b>Rayagada</b>	Bauxite, Graphite, Quartz/silica sand, granite	<a href="#">State Human Rights Commission</a> : No online complaint	
<b>Sambalpur</b>	China Clay, Coal, Dolomite, fireclay, Garnet, Limestone, manganese, Quartz/silica sand, sillimanite, talc/steatite, Copper, granite	<a href="#">Public Hearing</a>	
<b>Sundergarh</b>	Bauxite, China Clay, Dolomite, fireclay, Limestone, manganese, Quartz/silica sand, Quartzite, Lead, Silver	<a href="#">Environment Clearance</a>	
<b>Talcher</b>	Coal
