

Minerals found in Gujarat

State		
	Minerals Found in Respective Districts	Brief Summary and Important Links
GUJARAT		
Amreli	Bauxite, Bentonite, China clay, Limestone, Calcite	Gujarat is the second largest producer of lignite and crude petroleum. It attains 6th position (2010-11) in terms of its contribution to production. In 2010-11, the value of mineral production remained at Rs. 12731.07 crores whereas the value for minor minerals remained at Rs. 725.67 crores.
Banaskantha	China Clay, Copper ore, Granite, Lead-Zinc, Marble	
Bharuch	Agate , Fireclay, Fluorite, Lignite, Quartz/Silica sand, Calcite	
Bhavnagar	Bauxite, Bentonite, China Clay, Dolomite, Fuller's earth, Gypsum, Lignite, Ochre, , Quartz/Silica sand	
Dahod	Quartz/Silica sand	
Jamnagar	Bauxite, Bentonite, China Clay, Gypsum	
Junagarh	Bauxite, China Clay, Gypsum, Limestone	
Kachchh	Bauxite, Ball Clay, Bentonite, China Clay, Fuller's earth, Gypsum, Lignite, Limestone, Ochre, Quartz/Silica sand	
Kheda	Bauxite, Fireclay, Limestone, Quartz/Silica sand	
Mehsana	China Clay, Fireclay, Granite	
Panchmahals	Limestone, Quartz/Silica sand, Rock phosphate, Graphite, Manganese ore	
Patan	Ochre	
Porbandar	Bauxite, Chalk, Limestone	
Rajkot	Fireclay, Limestone,	

	perlite, Quartz/Silica sand	minerals in Gujarat
Sabarkantha	Bauxite, Bentonite, China Clay, Fireclay, Limestone, Quartz/Silica sand, Granite	RTI Link
Surat	Fireclay, Lignite, Limestone, Quartz/Silica sand	State Human Rights Commission
Surendranagar	Fireclay, Gypsum, Quartz/Silica sand	Public Consultation
Vadodara	Dolomite, Fluorite, Limestone, Quartz/Silica sand, Lead-Zinc, Marble, Manganese Ore	Environment Clearance
Valsad	Bauxite	
Valsad	Limestone, Quartz/Silica sand
